

Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Sam Kilpatrick III

Date Prepared: January 16, 2015

Project Title: LHS Underground Oil Tank

Program Area: School Facilities

Project Description: Removal of underground oil tank at LHS. If referendum passes, LCS and GHS tanks will be addressed within the scope of construction.

Evaluation Category: SR

Planning Context: Underground piping would also need to be replaced, and pavement work would need to be done as well. Another question that will come into play is the use of #4 oil at the facility: would a new tank force us into a conversion to #2 oil at the same time.

Schedule: Summer/Holiday work would provide the least interference with student activity.

Coordination: Work is not contingent upon other CIP projects. Town has other tanks that may be combined with this work to gain economies of scale.

Previous Town Meeting Action: No previous Town action.

Project Priority:

 H priority within department/program area

 H Risk of deferring project

Estimated Cost: \$

2017: \$100,000

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

Form 1. Individual Project Proposal Descriptions and Justification

- Cost of comparable facility or equipment
 - Rule of thumb indicator, unit costs
 - From the cost estimate from engineer, architect, or vendor
 - From bids received
 - Preliminary estimate, (e.g. no other basis for estimate, guesstimate)
-

Alternative Financing: None.
