

## Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Sam Kilpatrick III

Date Prepared: January 4, 2016

Project Title: LHS Underground Oil Tank

Program Area: School Facilities

---

**Project Description:** Underground oil tanks removed at LMS, JWL, GFS. Remaining underground tanks follow:

Ledyard Center School: #2 Fuel, 5,000 gallon and 2,500 gallon tanks

Gallup Hill School: #2 Fuel, 8,000 gallon tank

Ledyard High School: #4 Fuel, 12,000 gallon tank

The building projects at Gallup Hill School and demolition project at Ledyard Center School will address the removal of those tanks, leaving the (1) remaining underground tank at LHS.

Evaluation Category: SR

---

**Planning Context:** Underground piping would also need to be replaced; repavement of the service entry area would need to be done as well. Another question that will come into play is the use of #4 oil at the facility: would a new tank force us into a conversion to #2 oil at the same time.

---

**Schedule:** Summer/Holiday work would be required, as the tank is located in the service entry to the school, where supply deliveries are received.

---

**Coordination:** Work is not contingent upon other CIP projects.

---

**Previous Town Meeting Action:** No previous Town action.

---

**Project Priority:**

  H   priority within department/program area

  M   Risk of deferring project

---

**Estimated Cost:** 2019: \$100,000

## Form 1. Individual Project Proposal Descriptions and Justification

---

**Basis of Cost Estimate:** Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

- Cost of comparable facility or equipment
  - Rule of thumb indicator, unit costs
  - From the cost estimate from engineer, architect, or vendor
  - From bids received
  - Preliminary estimate, (e.g. no other basis for estimate, guesstimate)
- 

**Alternative Financing:** None.
