

Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Sam Kilpatrick III

Date Prepared: January 4, 2016

Project Title: Gymnasium Door Hardware

Program Area: School Facilities

Project Description: Currently, the gymnasium doors at LCS, GHS and JWL do not allow for lock-down. Crashbar hardware installation would allow for the locking of the doors from the inside of gymnasiums without impeding exit (per fire code).

Evaluation Category: NEF, RPH

Planning Context: This security upgrade came out of the School Safety and Security Committee, and was tagged to be addressed within the second round of State Security Grant funding, which has since dissipated.

Coordination: Work is not contingent upon other CIP projects, but could be completed in conjunction with Electronic Magnetic Locking mechanisms, another Security Committee suggestion.

Schedule: Summer work would provide the least interference with student activity.

Previous Town Meeting Action: No previous Town action.

Project Priority:

 H priority within department/program area

 M Risk of deferring project

Estimated Cost: \$

2017: \$8,500

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

Form 1. Individual Project Proposal Descriptions and Justification

- Cost of comparable facility or equipment
 - Rule of thumb indicator, unit costs
 - From the cost estimate from engineer, architect, or vendor
 - From bids received
 - Preliminary estimate, (e.g. no other basis for estimate, guesstimate)
-

Alternative Financing: None.
