

Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Steve Masalin Date Prepared: January 27, 2016

Project Title: Municipal Building Reserve Fund Area: Facilities

Project Description: This is a proposed CNR reserve fund to provide for on-going capital level renovations and life-cycle maintenance for the Town's non-BOE municipal buildings.

Evaluation Category: SR

Planning Context: Due to a combination of factors, including facility age, inconsistent capital investment, and normal wear and life cycle deterioration, all of the Town's municipal facilities will develop building maintenance and improvement needs. This fund is intended to establish and maintain a reserve adequate to address these needs at the appropriate time.

This fund was initiated in FY14 at a value of \$17,500, which is substantially below the annual value necessary for the cumulative ongoing needs of the Town's buildings' needs. This fund received no appropriations in FY15 and FY16.

Schedule: Work may proceed at anytime that funding is appropriated for it.

Coordination: Individual initiatives undertaken annually with these funds should be accomplished in coordination with other work of related nature funded in the same year. Work accomplished through this fund will depend on the fate of other major capital building initiatives.

Previous Town Meeting Action: N/A

Project Priority: (Note: The highest priority does not have to occur in the nearest year, and priorities do not necessarily follow in chronological order. It may be that your most important project may not be needed or be ready for action until three years from now.)
