

Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Steve Masalin Date Prepared: December 20, 2016

Project Title: Sandy Hollow Guiderail Program Area: Road Infrastructure

Project Description:

Replacement of 8,100+ linear feet of wood post and cable style guiderail along Sandy Hollow Road with metal beam style guiderail.

Evaluation Category: RPH, DF

Planning Context:

The existing post and cable style guiderail in the causeway section of Sandy Hollow Road has deteriorated in several places to the point of inadequate function. Most of the wood post and cable guiderail in Town has been progressively replaced with metal beam style guiderail. However, the extensive scope of effort required at Sandy Hollow Road has precluded undertaking replacement in this area.

Schedule: The project may proceed anytime funding for it is appropriated. It has been carried unfunded in the CIP for several years, though the estimate has increased due to the delay.

Coordination: None.

Previous Town Meeting Action: N/A

Project Priority

M priority within program area

Estimated Cost: \$ 200,000

Form 1 (Continued)

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

- Cost of comparable facility or equipment
 - Rule of thumb indicator, unit costs
 - From the cost estimate from engineer, architect, or vendor
 - From bids received
 - Preliminary estimate, (e.g. no other basis for estimate, guesstimate)
-

Alternative Financing: This project in its entirety would be eligible for LoCIP funding.
