Subject: Rose Hill Road Signage Improvements

Mike:

During the Rose Hill Road sitewalk concerning the planned road improvements, the subject of road sign plans was briefly discussed. Per your direction I pursued a more detailed investigation. The Ledyard Signs & Markings Manager has reviewed the situation and has found several needed improvements. The PW Department plans to install twelve new signs according to the attached plan.

Most of the new signs are curve warning signs. Two additional speed limit signs are proposed.

Sincerely:

Steve Masalin
