6:30 PM, Bill
Library

July 16, 2014
2:30 PM Town Hall
Annex

The Tri-Town Trail
Is Moving Ahead And
We Want Your Input
And Support

PUBLIC INPUT & INFORMATION MEETINGS

We are working to complete the Northern Section of the Trail in 2015; Your input and support is critical to the success of this important recreational and economic development project.

As you have hopefully heard, the Town of Ledyard in conjunction with the Tri-Town Trail Committee has been actively pursuing the development of a multi-use trail from Preston Community Park to Bluff Point State Park. Last year the Town of Ledyard successfully won a grant from the DEEP Recreational Trails Program for the design and development of the trail in the northern section of Town. The goal of this grant is to define the alignment of the future trail, and hopefully begin some implementation work.

To begin the design process we are hosting two (2) neighborhood input and informational meetings. We are asking that you try to attend one of the meetings. The meetings will cover the history of the trail project, the anticipated future development of the trail, the property tax

abatement for recreational access and more. We would, also, like to receive significant input from neighboring residents.

The meetings will be:

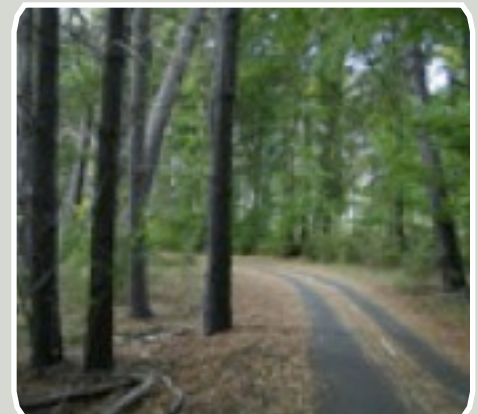

Tuesday July 8th at 6:30 PM at the Bill Library

Wednesday July 16th at 2:30 PM at the Town Hall Annex

If you can not make either of the meeting dates, and would like to participate, or you have questions, please contact:

Chad Frost
